

ICE BREAKER SAT. FEB 20th 2010

Well we lucked out again, rain was predicted for Saturday, but it turned out to be a great day for our run, no rain on Saturday. Most of the group was there when I got there at 8:00 at Burger King at Herndon & 99. We had to leave Fresno in two groups, because we had 28 Corvettes and two vehicles packing all the party goodies and equipment. Our first group left at 8:15 with Bruce Looney leading the way. Second group left at 8:35 with Alan Teixeira in the lead. Thanks you two. Our first stop was Carl's Jr. on the west end of Los Banos, for pit stop, coffee, donuts. Thanks Emil & Sue Natalie for picking up donuts and setting it out in parking lot at Carl's from there SUV. Maria the manager at Carl's has been helping us for years to be ready with extra help and coffee, so we can get in and out smoothly, and letting us do our thing in the parking lot, again she thanked me for the business and how nice all of you treated her employees, it sure makes it easier for the next run. We picked up two more vettes in Los Banos and again left in two groups headed over to Fortino's winery in Gilroy. I got to lead the second group to Gilroy, because I didn't want anyone to get lost. That's a joke of course. Believe it or not we did fine. When we got to Fortino's we had the Friends & Family Club waiting for us there with 10 more Vettes. We had a great time at the winery with them, they are a fun group. From Fortino's again leaving in two groups, we motored over Hecker Pass, what a great Corvette drive, the weather was still great and the hills were green and beautiful. Our next stop Phil's Fish Eatery in Moss Landing. The food/service/ the reserved parking were great again. Thank you Jerry Najarian for setting this all up, great job. With our bellies stuffed we headed over to Monterey to check in at the Casa Munras. From there a bunch of us headed down to Dominicos Rest. on the wharf for happy hour. Again we had a great time with friends and members just bench racing and remembering all the old times and events we shared together, and again it was a blast. OH YAAA. Back to hotel for the party around the pool, we barbecued hot dogs [125 of them] it was like a football tailgate, we even feed a bunch of kids that were swimming in the heated pool hot dogs that just were guest of the hotel, fun fun. Want to thank all of you that brought chips/dips/ fruit / deserts/ beverages/ it sure helped the menu. Friends and Family group, also brought more goodies than we could eat, needless to say we had a lot to munch on. Just about the time we were finished it started to sprinkle, so we kind of moved into our room and kept the party going inside, it was great ending for our Ice Breaker. All the people who helped make this run another success, Jerry/Joann Najarian—Dave/Terri Cavanaugh—Emil/Sue Natalie—Bruce/Ruth Looney—Alan/Nancy Teixeira, without your help this could not happen, thank you, thank you. All the COF members and guests thank you for making this another great ICE BREAKER RUN. You are # 1 on my list
