

Veterans Day Parade 2008

Billie Talley

Veterans Day, November 11 2008...Once again the Veterans Day Parade was a huge success and the weather was absolutely beautiful, almost as beautiful as the 17 participating Corvettes whose model years ranged from 1964 through 2008.

We met at the N.W. corner of Fresno and Shaw in preparation for movement to the staging area. We then caravanned over to the staging area located in downtown Fresno. As usual, we had a long wait before finally getting out on the parade route, but we got in a lot of visiting during that time. It was all worth while when we were greeted by a very enthusiastic crowd cheering and yelling "rap it up!".

After finishing the parade, we went to Colorado Grill for burgers, fries and some more camaraderie along with the good feelings associated with having shown our support for the Veterans.

A special thank you goes out to all my friends and Veterans who participated. I am looking forward to seeing you all again next year.
